📍 Iran. Rasht

🪪 PROFILE

I am a passionate **frontend developer** with around **4 years** of experience building **responsive**, **user-friendly** websites and applications. I specialize in **Angular, React.js** and **next.js**, leveraging **modern web technologies** to create seamless and dynamic **user interfaces**. I have hands-on experience with **Progressive Web Applications** (**PWAs**) and **Enterprise Resource Planning** (**ERP**) systems, ensuring high-quality solutions tailored to client needs. Skilled in **API integration** and manipulation, I excel at developing **reactive and intuitive UIs** that enhance user engagement. **Fluent in English**, I'm committed to continuous learning and delivering exceptional results.

💼 PROFESSIONAL EXPERIENCE

05/2025 – 08/2025

Frontend Developer-Pishtazteb Co. — SaaS Platform Development- Iran.Tehran
As a frontend developer at Pishtazteb, I contributed to the development of a **role-based SaaS platform** designed to serve various user types across distinct interfaces. I was responsible for building a secure and dynamic authentication flow that directed users to their respective environments, ensuring compliance with access rules based on user roles.
Key Responsibilities & Achievements:

- Developed a **multi-step authentication system** with conditional flows based on user roles using React.js and Next.js.
- Implemented **role-sensitive routing and access control**, ensuring users only reach authorized sections of the platform.
- Structured and delivered **modular, scalable components** across multiple user interfaces.
- Improved **user experience** through responsive design and intuitive panel navigation.
- Ensured **secure frontend logic**, aligned with backend role verification and permission-based access.
- Collaborated with cross-functional teams to define UI logic and role-handling requirements.

08/2024 – present

Freelancer - Iran
Designed and developed diverse web projects as a freelancer using modern technologies such as **React.js, Next.js**, and other cutting-edge tools to deliver **high-performance, responsive,** and **scalable applications**.

09/2023 – 05/2024

Frontend developer - Dayan company - Iran.Tehran ⧉
Dayan is an **accelerator** that provides **funding and essential resources** to support **innovative, high-potential startups** in **developing** and **launching** their **products**.
Angular Developer at Proset (a Dayan-backed startup) *Proset* is an **ERP-focused startup** providing web-based solutions tailored for the **stone industry**.
Key Responsibilities & Achievements:

- Developed **complex multi-step forms** with **dynamic logic** and **validation**, ensuring accurate and seamless user interactions.
- Built **reusable and scalable UI components** for the ERP web app using **Angular** and **TypeScript**.
- **Integrated RESTful APIs** and managed asynchronous data streams using **RxJS** for real-time updates and smooth user experience.
- Collaborated with cross-functional teams in an **Agile environment** to **deliver high-quality features** on time.
- Optimized frontend performance and ensured maintainability through clean architecture and modular code.

🧠 SKILLS

hard skills
- javascript(es6+) (expert)
- typescript (expert)
- React.js (expert)
- Next.js (expert)
- React Query (expert)
- bootstrap (expert)
- tailwind (expert)
- html (expert)
- css (expert)
- Angular (expert)
- RxJs (expert)
- git (expert)
- angular material (intermediate)
- NgRx (intermediate)
- material ui/mui (intermediate)
- redux/redux toolkit (intermediate)
- Zustand (intermediate)
- restful API (intermediate)

familiarities
- Object Oriented Programming (OOP)
- Progressive Web Application (PWA)
- Enterprise Resource Planning (ERP)
- Software as a Service(SaaS)
- Microservice Architecture
- Clean Code
- CI/CD
- WebSockets
- express.js
- axios
- APIs
- docker
- vercel
- github
- shadcn
- atlassian bitbucket
- atlassian jira
- jenkins
- figma

soft skills
- communication
- teamwork
- problem-solving
- discipline
- language: fulent

📁 PROJECTS

05/2025 — **candlestick and grouped charts** ⬈
Developed two interactive data visualization components in a **Next.js** application: a candlestick chart for **displaying trading data** and a **grouped bar chart** for **comparing performance metrics**.

04/2025 — **infinite scroll** ⬈
Implemented an **infinite scroll** feature for the **news section** of a product at Feedbeen using **Next.js (React.js)** and **TanStack Query** to efficiently fetch and render paginated data as users scroll.

02/2025 – 03/2025 — **realmehrshad.ir** ⬈
This is my **personal portfolio website**, built with **Next.js** and **TypeScript**, featuring **smooth animations**, a custom **slider**, **map**, **contact form**, and **scroll-based UI highlighting** for an engaging and user-friendly navigation experience. The website is fully bilingual (**English** and **Persian**) and supports a **dark mode theme** for improved accessibility and user preference.

01/2025 — **Ideal todo project** ⬈
Full-Stack To-Do App
A feature-rich to-do application developed with **Next.js(frontend)** and **Express.js (backend)**, demonstrating best practices in both **UI/UX** and **API integration**.
Key Features:
- Full **CRUD operations** with persistent data via a custom **Express.js API**.
- Global state management using the **useContext hook** for clean component communication.
- Input **validation** and **confirmation modals** to ensure reliable user actions.
- Real-time feedback using **react-toastify** for status and process notifications.
- **Dynamic filtering** of tasks (All / Done / Undone) with responsive UI updates.

06/2023 — **weather app** ⬈
This app allows users to view **current weather conditions** for **any city worldwide** in **real time**.

🌐 LANGUAGES

English — Fluent

🎓 EDUCATION

2015 – 2018 — **Shahid Eftekhari highschool(Ahmad sar gorab,guilan, Iran)**
Diploma in Experimental sience
